6. Other Practical	
7. Other (please specify)	
Date	
	 2. Planning, Information 3. Teaching, Research 4. Clinical 5. Laboratory 6. Other Practical

The IEA and its Aims

The International Epidemiological Association now has more than 2000 members in over 100 different countries who follow the aims of the Association to facilitate communication amongst those engaged in research and teaching of epidemiology throughout the world, and to encourage its use in all fields of health including social, community and preventative medicine. These aims are achieved by holding scientific meetings and seminars, by publication of journals, reports, monographs, translations of books, by contact amongst members and by other activities consistent with these aims. Members are accepted without regard to race, religion, sex, political affiliation or country of origin.

The Association publishes its own Journal, the **International Journal of Epidemiology**, which is published bi-monthly, an electronic copy is included in the membership dues. Please also note that subscriptions are for a full year and will renew the following year based on when you join. The current membership dues are shown on the following page.

World Congress of Epidemiology meetings are held triennially in different parts of the world. The last meeting was held in Edinburgh, Scotland, in August 2011 and the next will be held in Anchorage, Alaska in 2014. Regional Scientific Meetings are held at regular intervals throughout the world.

More information about the Association's aims and activities can be found on its web site at http://www.IEAWeb.org

NEW APPLICATIONS ONLY

I subscribe to the above aims and objectives of the IEA and wish to become a member.
